I ask people I meet, ‘Are you passionate about your health and living longer? About wellness and complementary medicine?’ If so, I offer 20 minutes to test their home water, dialog about their health concerns and questions, and help them strategize for optimal health and well-being. I positively *love* what I do and why I do it—helping people achieve better health so they can live a longer and more fulfilled life.

<b>My Services</b>	I promote health and wellness through education and taking responsibility for lifestyle choices. I work with nutrient-rich foods and technologies such as the PiMag Waterfall water purifier. I share why this is so important to families. Through this sharing, life gifts me with new friendships that are fulfilling and positively rewarding.
<b>Active Wellness</b>	I offer a healthy home environment—pure alkaline water, better sleep (solutions for the bed), stress reduction, organic beauty products, organic nutrient-dense foods, and more. Simple wellness solutions for the health-conscious person on the go.
<b>Ideal Clients</b>	My best clients are people who choose holistic living and active wellness. They know the importance of eating the right foods, full of the nutrients the body needs. They want better sleep. They enjoy taking care of their health and want to be sure that what they are eating and drinking is pure. They want to learn simple ways to better nutrition for busy folks.
<b>Referral Partners</b>	Chiropractor, acupuncturist, physical therapist, naturopath, trainer, massage therapist... People who care about others.
<b>Clients Say</b>	<p>“I love my good-tasting, purified, alkaline water. My friends will be calling you.” <b>Wendy</b></p> <p>“My weight is going down, down, down with the Kenzen Vital Balance and TEN4 and more. Hooray!” <b>Sandra B.</b></p> <p>“My skin looks younger. The compliments I get!” <b>Elaine</b></p> <p>“My sons and I sleep so well on our Nikken mattress toppers! Thanks.” <b>Maria M.</b></p>
